**SUBJECT:** Approval of FFY 2022-2031 STIP – Administrative Adjustment – Revision #6

**DATE:** November 21, 2022

The Rhode Island Department of Administration, Division of Statewide Planning has received the Rhode Island Department of Transportation's (RIDOT) November 11, 2022 – Request for Administrative Adjustment to the FFY2022-2031 State Transportation Improvement Program (STIP).

The proposed 184-line item changes to the STIP in this request include the following:

- 33 in the Active Transportation Program
- 47 in the Bridge Program
- 11 in the Corridor Projects Program
- 2 in the RIDOT Maintenance Operations Program
- 11 in the Major Capital Projects Program
- 54 in the Pavement Program
- 1 in the Stormwater Program
- 4 in the Study and Development Program
- 20 in the Traffic Safety Program
- 1 in the RIDOT Transit Program

The net result of the changes is an increase of \$25.85 million in funds over the constrained period (FFY 2022-2025) and a total addition of \$248.19 million over 10 years (FFY 2022-2031). The Adjustment allocates \$28.54 Million in new Fiscal Year 2022 August Redistribution funds and includes an additional \$12.71 million in Bridge Formula Program (BFP) funding just made available to the Department.

I have reviewed RIDOT's request according to the Memorandum of Agreement governing Procedures to Amend and Modify the State Transportation Improvement Program executed January 6, 2022. I find that this request constitutes an Administrative Adjustment under the Memorandum of Agreement and is hereby approved.

The documentation submitted indicates that fiscal constraint of the STIP will be maintained. **MEMO:**

**TO:** Meredith E. Brady  
Associate Director, RIDOA, Division of Statewide Planning

**FROM:** Kenneth R. White Jr., Ph.D.  
Assistant Director for Administrative Services, RIDOT, Division of Planning

**DATE:** November 11, 2022

**SUBJECT:** Request for Revision #6 to the FFY2022-2031 STIP  
Administrative Adjustment

The purpose of this memorandum is to summarize the changes proposed in Revision 6 to the FFY2022-2031 STIP. An Administrative Adjustment, this revision incorporates funding source adjustments based on additional federal guidance for programs created by the Infrastructure Investments and Jobs Act (IIJA), adjustments to the capital program to reflect actual obligations during federal fiscal year (FFY) 2022, and the receipt of August Redistribution funding from the Federal Highway Administration (FHWA).

This proposed revision does not reflect the financial impact of the September 21 federal court decision ordering a stoppage in collection of truck tolls by RIDOT. The matter is developing and discussions are ongoing to determine the best course of action to minimize disruptions to the schedules or all projects proposed in the STIP. RIDOT expects to make a subsequent revision to the STIP to address the allocation of truck toll revenue in several projects.

The result of the actions described herein is an addition of \$25.85 Million to the STIP during the constrained period (FFY2022-2025), and a total addition of \$248.19 Million over 10 years (FFY2022-2031).

---

## SUMMARY OF PROPOSED ACTIONS

This revision allocates \$28.54 Million in new Fiscal Year 2022 August Redistribution funds. RIDOT was awarded a total of \$48.54 million through the annual process, which allows states to request additional obligation limitation to support ongoing or upcoming projects. The STIP previously anticipated a \$20 Million award for FFY 2022, so this revision allocates the remaining funds, and reflects the reassignment of funding by category throughout the program.

Other funding made available to the Department includes an additional \$12.71 million in Bridge Formula Program (BFP) funding. Following the release of FHWA's 2023 funding notices, RIDOT has adjusted its expectations for the use of BFP funding to reflect an anticipated funding level of approximately \$50.99 million annually, a small increase over the initially projected levels. Because BFP funds are not subject to annual obligation limitations, this revision also adjusts the allocation of BFP funding over time to deploy it as needed throughout the constrained years.

This revision also consolidates several projects in proximity with one another into larger bundles to simplify project administration. These new bundles are incorporated under the following TIPIDs:

- TIPID 1294, formerly "Airport Connector (I-95 to Green Airport)," has been expanded in scope to include former TIPIDs 1414, US-1 Post Road (Coronado Rd. to 6th Ave), and 9543, RI-1A, Post Road (US-1, Elmwood Ave to RI-117, Warwick Ave). The revised project is now listed under TIPID 1294 as "Airport Connector (I-95 to T.F. Green Airport) and Post Road (Coronado Rd. to Warwick Ave.)"
- TIPID 1351, formerly "East Main Road (Peckham Rd to Simmons Rd)," has been expanded to include TIPIDs 1352 and 1354, and renamed "Little Compton Commons Repaving". TIPID 1352 included paving of Meeting House Lane from South Commons Road to RI-77 West Main Road. TIPID 1354 included paving of South Commons and Simmons Roads from Brownell Road to East Main Road.
- TIPID 1402, Fish Road (RI-177 to Sterling Drive), has been bundled with TIPID 9506 under TIPID 1402. TIPID 9506 formerly included paving of Souza Road from RI-138 to Fish Road.

- TIPID 1404, Highland Road (Bridgeport Road to RI-77 Main Road) now includes paving and sidewalk work included under TIPID 1405, RI-77 Main Road (Old Main Road to RI-24 Ramps). Paving of Riverside Drive, formerly included in TIPID 1405, was not bundled with this project as Riverside Drive is being repaved as part of local utility paving.
- TIPID 1578 has been renamed from "RI-7 - Douglas Pike (Providence T/L to Burrillville T/L)" to "Corridor - Route 7," and shifted into the RIDOT Corridor Projects Program. This revision shifts two bridges from TIPID 3182 into TIPID 1578 to streamline project delivery, so the name, funding, and description of both line items has been updated to reflect that change.
- TIPID 7202, formerly "Bridge Preservation - 2022," has been expanded to consolidate the funding listed under TIPID 7203 into a single line item to reflect the administration of bridge preservation funding in the near-term, spanning two federal fiscal years. The revised line item is now identified under TIPID 7202 as "Bridge Preservation - 2022 & 2023."
- TIPID 9998 has been renamed from "Bridge Group 97 -- East Ave Corridor" to Corridor - Central Warwick following the bundling of TIPIDs 1410 (RI-117 West Shore Road from Long Street to Oakland Beach Avenue) and 1413 (RI-113 Main Avenue from RI-5 to RI-117) into this project.

TIPID 9998 also now includes \$760,000 in local match provided by the City of Warwick to pave US-1 Post Road from Route 113 to Coronado Road, which was not previously listed in the STIP.

Approximately 40 of the line item changes included in this revision are limited to corrections in data errors within internal STIP Management systems that prohibited the projects from being mapped correctly. Updates to these line items is expected to correct the data error and improve spatial mapping for STIP projects.

Lastly, this revision also adjusts the budgets and schedules for several projects in the program based on updated findings in the prescoping, scoping, and final design processes, adjusting the allocation of funding over time to meet the unique needs of each project while maintaining a balanced program.

## **PROPOSED ACTIONS BY PROGRAM**

This administrative adjustment includes 184 line-item changes, all of which are in RIDOT programs. The proposed project changes by program are as follows:

- 33 in the Active Transportation Program;
- 47 in the Bridge Program;
- 11 in the Corridor Projects Program;
- 2 in the RIDOT Maintenance Operations Program;
- 11 in the Major Capital Projects Program;
- 54 in the Pavement Program;
- 1 in the Stormwater Program;
- 4 in the Study and Development Program;
- 20 in the Traffic Safety Program; and
- 1 In the RIDOT Transit Program.

This adjustment does not include any modifications to line items listed in Rhode Island Public Transit Authority (RIPTA) programs or projects.

## **CLASSIFICATION OF REVISION TYPE**

Pursuant to the Memorandum of Agreement (MOA) Governing Procedures to Amend and Modify the State Transportation Improvement Program, as amended January 5, 2022, this action constitutes an Administrative Adjustment and conforms to the funding thresholds identified in Exhibit A1 of the MOA.

The addition of August Redistribution funding in excess of the budget increase thresholds for an Administrative Adjustment is allowed under STIP MOA Section IV, subsection B(1)c(ii.), which states that "adding Federal Discretionary funds to projects already listed in the four (4) fiscally constrained years of the STIP" constitutes an Administrative Adjustment and is not subject to the STIP Revision Funding Thresholds.

This revision also includes six proposed changes which are difficult to classify based on the parameters established in the MOA because they are unconventional or otherwise implement adjustments which improve the delivery of the program. RIDOT has requested that these unique cases, or Projects with Extenuating Circumstances (PECs), be processed under an Administrative Adjustment to avoid complicating the financial balance struck by Revision 6 and prevent delays to implementing projects adjusted in this Revision. You may reference all supporting documentation for those cases in a separate letter provided by my office on November 11, 2022, titled "Supporting Documentation for Projects With Extenuating Circumstances (PECs) in Revision #6 to the FFY2022-2031 State Transportation Improvement Program (STIP)."

In addition, based on discussions with rail stakeholders and the Office of Bridge Engineering regarding project readiness and asset conditions, RIDOT is reintroducing several bridges previously included in the FFY2018-2027 STIP back into the FFY2022-2031 program under STIP MOA Section IV, subsection B(1)b(iv.), which states that "creating a new bridge group to accommodate scheduling and contracting for individual bridges already listed in the STIP" is allowable under an Administrative Adjustment. The projects affected by this action include:

- TIPID 3191, Bridge Group 21B\_R -- Olneyville Amtrak Bridges, which introduces funding beginning in FFY2029 for three bridges previously listed in the FFY2018-2027 STIP. Bridge #045301, Cranston Street Viaduct, was previously bundled in Bridge Group 22. Bridges #088401 and #092501, Magnan Road RR and Union Ave RR, were previously bundled in Bridge Group 21B.
- TIPID 3192, Bridge Group 21C\_R -- Woodlawn Amtrak Bridges, which introduces funding beginning in FFY2028. In the FFY2018-2027 STIP, Bridges #093101 and #093201, Branch Avenue RR and Smithfield Avenue RR, were previously included in Bridge Group 21C. Bridge #093301, Lonsdale Avenue RR, was included in Bridge Group 24.

Bridge #077901, Bath Street West, was not previously included in the STIP but has been added to a new project, TIPID 5180, WRG - Bath Street West Enhancements, following allocation of Community Project Funding allowable under Section IV, subsection B(1)c(ii.).

A summary of the proposed changes by line item and all supporting documentation will be provided as a separate report for review by the Division of Statewide Planning.

Municipality		Description										Responsible Agency
Lincoln, North Providence, Providence		This project includes total replacement of the Wanskuck (#042801) and Admiral Street (#043001) bridges. Major rehab of the Cobble Hill Road Bridge (#041801) was previously included in Bridge Group 47C. At the merge of RI-146S and I-95S, a new collector-distributor road will be constructed linking traffic from RI-146S and I-95S directly to the US-6/RI-10 off-ramp, eliminating a conflicting weave that generates frequent congestion. Providence		This project will replace the 1,295-foot long northbound section of the Providence Viaduct Bridge which carries I-95 over numerous local roads and highway ramps, Amtrak's Northeast Corridor and the Woonasquatucket River. Construction of a new collector-distributor (C-D) road along the right side of the Interstate will eliminate the weaving conflicts and congestion that plague the segment of I-95 Northbound from the 6/10 Connector and Downtown on-ramps to the Route 146/State Offices interchange. Ramps will also be reconfigured to disentangle conflicting movements, improving motorist safety.										RIDOT
