

Rhode Island Solid Waste Management Plan (SWMP) Update

Working Group

This group is made up of representatives/staff of the Rhode Island Resource Recovery Corporation (RRC), the Department of Administration, Division of Planning, Statewide Planning Program (SPP) and the Department of Environmental Management Office of Waste Management (DEM OW). This group will manage the plan update and adoption processes per the Memorandum of Understanding among the three offices. The Working Group will communicate regularly and meet whenever necessary.

Advisory Committee

This multi-disciplinary group is providing direction and guidance during the preparation of the preliminary draft SWMP. The Committee is designed to ensure full and balanced representation of the interests and groups concerned with solid waste management and recycling issues. The Committee is guided by staff support from the RRC, and technical assistance from SPP and DEM OW. The Committee has the following responsibilities:

- Review and comment on an outline for preparation of the updated SWMP.
- Provide information and recommendations to assist the RRC staff in preparing a preliminary draft SWMP.
- Review the preliminary draft SWMP (or sections) and provide feedback to the RRC staff.
- Upon approval of the Board of RRC Commissioners and DEM OW, recommend a preliminary draft SWMP to the State Planning Council’s Technical Committee for forwarding to the State Planning Council for public hearing, revision, and adoption.
