INTEROFFICE MEMORANDUM

TO: Pam Cotter, Acting Administrator, Division of Planning
FROM: Linsey Callaghan, Assistant Chief, Division of Statewide Planning
SUBJECT: Approval of FFY 2018-2027 STIP – Administrative Adjustment - Amendment #10
DATE: December 17, 2018

The Rhode Island Department of Administration, Division of Statewide Planning has received the Rhode Island Department of Transportation's (RIDOT) request of December 5, 2018 – Revised Request for Administrative Adjustment to the FFY2018-2027 State Transportation Improvement Program (STIP). Changes are proposed in the Traffic Safety Capital Program, Traffic Maintenance Capital Program, and Bridge Capital Program. The following summarizes the changes proposed by RIDOT:

- Consolidation of Traffic Safety and Traffic Maintenance Capital projects to address ongoing roadway signage, traffic signal optimization, and pavement striping work.
- Reorganization of bridge groups or cost changes to 16 existing bridge groups (see next page for the listing of amended bridge groups). Due to permitting considerations, scheduling, or designated treatment type (i.e., rehabilitation, preservation, or reconstruction), existing bridges listed in the STIP have been reorganized resulting in 24 new bridge groups. This reorganization helps to advance individual bridge projects or coordinate like-work among bridges in the same group. In most cases, bridge groups are divided into smaller groupings of like-projects to facilitate project delivery. Due to variations in work type and the scheduling demands of AMTRAK-related projects, these bridges need to be separated into different groups. The table summarizes the bridge groups amended by this Administrative Adjustment and new bridge groups that have been created.

The net result of these actions is a \$3.66M change within the fiscally constrained years of the STIP. I have reviewed RIDOT's request against the 2003 Memorandum of Understanding (MOU) regarding procedures to amend and modify the STIP. I find that this request constitutes an Administrative Adjustment under the MOU and is hereby approved.

The documentation submitted indicates that fiscal constraint of the STIP will be maintained. For record keeping purposes, please note that this Administrative Adjustment shall be referred to as approved Amendment #10 to the FFY2018-2027 STIP. Revised STIP tables incorporating the modifications are enclosed.

cc: Rosemary Powers, Office of the Governor
State Planning Council, Transportation Advisory Committee

Bridge Groups Amended as Part of STIP Administrative Adjustment #10

Existing Bridge Group Amended or Removed	New Bridge Group	Work Type Description for Bridges within the Group
13A	13C	Full Replacement

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

Interoffice Memorandum

To: Meredith E. Brady
Associate Director, DOA Division of Planning

From: Pamela R. Cotter
Acting Administrator, RIDOT Division of Planning

Date: December 10, 2018

Subject: **Revised Request for Administrative Adjustment to the FFY2018-FFY2027 TIP**

This administrative adjustment is comprised of **16** unique actions, three in the Traffic Safety Capital Program, two in the Traffic Maintenance Capital Program, and 11 in the Bridge Capital Program.

The net result of these actions is a **\$3.66M** change within the constrained period of the STIP, **within the \$10M threshold specified by the Memorandum of Understanding governing the STIP adjustment process.**

The actions in this administrative adjustment are summarized below.

Traffic Safety Capital Program Adjustments

1. Combining Rt. 146 Guide Sign Projects

The purpose of this action is to combine two guide sign contracts on Rt. 146 into a single project. Currently, the two projects are scheduled in different years, with independent funding sources, but they are situated alongside one another on Rt. 146. They are:

1. TIP ID 1512: Route 146 Guide Sign and Sign Structure Replacement - Route 146A to Route 123 Lincoln
2. TIP ID 1540: Route 146 Guide Sign and Sign Structure Replacement - Route 246 to I-95

This action will combine these two projects into one. RIDOT proposes retaining TIP ID 1512 and combining the two projects under that singular identifier. The total funding required for the new project will be the sum of the two original project allocations, but the funding formerly allocated to TIP ID 1540 will now shift in to the constrained period. To accommodate this change, the following shifts will occur:

- TIP ID 1436: Traffic Safety Capital Program Planning Support - has \$1.00M in STBG funding available in FFY2020. \$0.5M of that funding will shift to the Outyears. The resulting gap will fund the new TIPID 1512.
- TIP ID 1433: Guardrail Improvements – has \$1.50M available in 2021 that will not be needed until later, so \$0.75M will shift to 2023 and the resulting gap will also help fund the new TIPID 1512.
- TIP ID 1538: Statewide Traffic Signal Improvements – has \$1.77M available in FFY2020, of which \$0.65M can shift to 2022.

All in all, \$1.9M will move between projects and years. The net adjustment balances out to \$0.

2. 2019 Traffic Signal Optimization

This action removes TIP ID 9602 Traffic Signal Optimization from the STIP and shifts the entire HSIP funding source of \$0.63M out of FFY 2019 into TIP ID 9607 RISTARS - East Bay - Near-Term Signing, Striping and Signal Safety (\$0.07M), TIP ID 9605 State Traffic Commission Improvements (\$0.26M) and TIP ID 9601 Intersection Safety Improvements (\$0.30M). All in All, \$0.63M will move between projects in FFY 2019. The net adjustment balances out to \$0

3. Exit Renumbering 2019 and 2020

The purpose of this action is to shift \$0.05M into TIP ID 1435 Exit Renumbering - Limited Access Facilities. The addition can be accounted for using available STBG funds. In addition, \$0.50M will move from TIP ID 1432 Limited Access Roadway Guide Sign Replacement into TIP ID 1435 Exit Renumbering - Limited Access Facilities in FFY2020. All in all, \$0.55M will move between projects in FFY2019 and 2020 combined. The net adjustment adds \$0.05M to TIP ID 1435 in FFY2019.

Traffic Maintenance Program Adjustments

1. 2019 Statewide Striping

Traffic Safety Group has requested an additional \$1.0M of funds be added to the 2019 Statewide Striping Contract Program. \$0.50M divided equally between TIP ID's 9402 Statewide Pavement Striping - East Bay 9404 Statewide Pavement Striping – North.

2. 2020 Statewide Striping

Traffic Safety Group has requested an additional \$1.0M of funds be added to the 2020 Statewide Striping Contract Program. \$0.333M divided equally between TIP ID's 9401 Statewide Pavement Striping - Central, 9403 Statewide Pavement Striping - Limited Access and 9405 Statewide Pavement Striping - South.

Bridge Capital Program Adjustments

1. Great Road Culvert

Great Road Culvert (TIP ID 6270, Bridge #119201) is currently in Bridge Group 13A. The culvert requires full replacement and must be moved out of Bridge Group 13A to avoid delaying the other components of the group. There are no other replacement bridge projects in the region that are logical fits to add Great Road Culvert, so it will move into its own new group, Bridge Group 13C.

RIDOT estimates that the total cost of the newly created Bridge Group 13C will be approximately \$3.45M. With an anticipated advertising date in FFY2021, the project will need funding in FFY20 for design, and FFY21 and FFY22 for construction.

2. Funding Sin and Flesh Bridge

This is an historic bridge that requires preservation work. A unique stone structure, the work will consist of repairing and repositioning stones to keep the bridge intact. The funding allocated in FFY18 was not used. However, the project budget is remaining the same, so the existing funding will simply shift over one year as shown below.

This change is minimal relative to the size of the program, and can be accommodated within the limits of the funding available in the constrained period.

3. Hunts Mills

Hunts Mills Bridge (TIP ID 6780, Bridge #020801) is an historic bridge requiring considerable coordination to complete. The project did not use the funding allocated to it in FFY18, and will instead require \$0.60M in design funding during FFY19 and the remainder of its funding in FFY20 and FFY21 for construction. These funding changes are shown below.

The total budget for the project is remaining unchanged, but the allocation of that funding by year is altered to accommodate the new project schedule. The addition of \$2.30M to the bottom line in 2021 will be offset by the other changes in this adjustment.

4. Dividing Bridge Group 13B

This bridge group needs to be divided into two smaller groups, corresponding to proposed treatment type, as follows:

- Wanskuck (TIP ID 6503, Bridge #042801), Admiral St (TIP ID 6424, Bridge #043001), West River St (TIP ID 6506, Bridge #088301) and Veazie Street (TIP ID 6502, Bridge #089001) bridges are all moving into newly created bridge group 13D, which will be a Major Rehab group;
- The remaining bridges are staying in Bridge Group 13B, which will be a Preservation group;

This change adds a net of \$1M in 2020, freed up by other changes in this administrative adjustment.

5. Moving Hope Bridge Out of Bridge Group 16B

The Hope Bridge (TIP ID 6542, Bridge # 025601) is an historic bridge that will require a considerable amount of coordination to complete. Leaving the bridge in its current group (Bridge Group 16B) would delay the completion of the group as a whole, and therefore, it is being moved to its own newly created Bridge Group 16C.

The total cost of the new Bridge Group 16C is estimated to be **\$3.69M**, including design funding in FFY2020 and construction funding in FFY2021 and FFY2022. Bridge Group 16C will be a Preservation group.

To accommodate this change, some funding (**\$1.17M**) will come from Bridge Group 16B. The rest will be offset by other changes in the program documented throughout this adjustment.

6. Dividing Bridge Group 17

Bridge Group 17 currently consists of 26 bridges with varying treatment requirements and timelines. Of these bridges, 17 will remain in Bridge Group 17, while 9 will move into new groups as follows:

- Douglas Pike North (TIP ID 6574, Bridge #074601), Diamond Hill Road (TIP ID 6303, Bridge #075401), and Douglas Pike South (TIP ID 6575, Bridge #074621) are all moving into the newly created Bridge Group 17A, which will be a group of Major Rehabs;
- Joslin Road (TIP ID 6010, Bridge #067201), Nasonville Concrete Arch (TIP ID 6012, Bridge #011001), and Pascoag River (TIP ID 6013, Bridge #067001) bridges are all moving into the newly created Bridge Group 17B, which will be a group of Major Rehabs;

- Newell Bridge (TIP ID 6306, Bridge #020401) is moving into the newly created Bridge Group 17C, which will be a full Replacement; and
- Stillwater Reservoir (TIP ID 6578, Bridge #024801), and Moffit Pond (TIP ID 6339, Bridge #022101) will move into the newly created Bridge Group 17D, which will be a group of full Replacements.

\$11.42M will move out of Bridge Group 17, leaving it with an updated allocation of \$8.35M. The new Bridge Group 17 will be a Preservation group. The newly created bridge groups will be funded through a combination of old Group 17 funding, funding made available by changes to other bridge groups in this adjustment, and outyear funding.

7. Dividing Bridge Groups 18A and 18B

Bridge Groups 18A and 18B currently contain 35 bridges between them, all of varying treatment types and designations. To facilitate the completion of all 35 bridges, they must be subdivided into new groupings, with new schedules, as follows:

- Wickford Hill RR (TIP ID 6256, Bridge #037001) will move from Bridge Group 18A into its own newly created Bridge Group 18_H, which will be an historic Major Rehab group;
- Rocky Hollow (TIP ID 6124, Bridge #082701) and Stony Lane RR (TIP ID 6255, Bridge #089501) Bridges will move from Bridge Group 18A into their own newly created Bridge Group 18_R, which will be an Amtrak Preservation group;
- Frenchtown Road West (TIP ID 6122, Bridge #076301) will move out of Bridge Group 18B and into its own newly created Bridge Group 18C, which will be a Major Rehab group;
- North Quidnesset Rd (TIP ID 6247, Bridge #116701) will move out of 18A, and Hunt River (TIP ID 6244, Bridge #000601), Gilbert Stuart Mill (TIP ID 6239, Bridge #103701), and Frenchtown Rd 2 (TIP ID 6121, Bridge #116301) will move out of Bridge Group 18B. All four bridges will move into the newly created Bridge Group 18D, which will be a group of full Replacements;
- Austin Farm (TIP ID 6234, Bridge #001501) will move out of Bridge Group 18A and into the newly created Bridge Group 19_H, which will be an historic Preservation group; and
- Davisville RR Bridge (TIP ID 6237, Bridge #036901) will move out of Bridge Group 18B and into Immediate Action. The treatment for Davisville RR Bridge will be Maintenance. The bridge will be funded with \$11.24M made available by other project shifts in this administrative adjustment, funding which will also support other projects to be handled by Immediate Action.

8. Dividing Bridge Group 21

Bridge Group 21 currently contains 12 bridges and culverts, 11 of which span AMTRAK rails. Due to variations in work type and the scheduling demands of AMTRAK-related projects, these bridges need to be separated into different groups.

Ultimately, the 12 bridges in Bridge Group 21 will move into 5 different bridge groups, 4 of which will be newly created.

- Branch Ave Culvert (TIP ID 6433, Bridge #043701) will move into Bridge Group 20B, which is a Preservation group;
- Broadway RR Bridge (TIP ID 6438, Bridge # 092701) will move into its own newly created Bridge Group 21A, which will be an Amtrak Major Rehab group;

- Magnan Road RR Bridge (TIP ID 6471, Bridge #088401), Union Ave RR Bridge (TIP ID6500, Bridge #092501), and Westminster RR Bridge (TIP ID 6507, Bridge #092601) will move into the newly created Bridge Group 21B, which will be an Amtrak Preservation group;
- Smithfield Ave RR Bridge (TIP ID 6494, Bridge #093201), Branch Ave RR Bridge (TIP ID 6434, Bridge #093101), Pleasant View RR NB Bridge (TIP ID 6389, Bridge #056301), and Pleasant View RR SB Bridge (TIP ID 6390, Bridge #056321) will move into the newly created Bridge Group 21C, which will be an Amtrak Preservation group; and
- Smith St RR Bridge (TIP ID6492, Bridge #092801), Charles St RR Bridge (TIP ID 6442, Bridge #093001), and Orms St RR Bridge (TIP ID 6482, Bridge #092901) will move into the newly created Bridge Group 21D, which will be an Amtrak Preservation group.

Bridge Group 21 will no longer exist, and its constrained period funding will be distributed to other projects in the Bridge Capital Program. *The rescheduling of these bridges frees up more than \$22.9M in the constrained period, funding which supports several of the preceding actions.*

9. Dividing Bridge Group 23

Bridge Group 23 currently consists of five bridges in Warwick (following Amendment 9, which moved three bridges from Group 23 into Immediate Action). Due to treatment type and scheduling requirements, the five bridges need to be split up into four newly created groups, as follows:

- Gorton RR SB Bridge (TIP ID 6649, Bridge #084121) will move into its own newly created Bridge Group 23_R, which will be an Amtrak Preservation group;
- Airport Elevated Roadway (TIP ID 6647, Bridge # 035021) and Hardig Brook Bridge (TIP ID 6650, Bridge #007901) will move into the newly created Bridge Group 23A which will be a Preservation group;
- Pontiac Bridge (TIP ID 6652, Bridge #018501), a major rehab, will move into its own newly created Bridge Group 23B, which will be a Major Rehab group; and
- Old Warwick Ave Bridge (TIP ID 6651, Bridge #117501) will move into its own newly created Bridge Group 23C, which will be a full Replacement group.

As a result of these changes, Bridge Group 23 will no longer exist. Its funds will be dispersed to the newly created bridge groups above, as well as other projects within the Bridge Capital Program.

10. Dividing Bridge Group 42

Bridge Group 42 currently contains 11 bridges of mixed treatment types and historic designations. To facilitate the completion of the necessary work on all these bridges, they must be separated into four new groups, as follows:

- Unnamed Stone Arch (TIP ID 6052, Bridge #039801) and Bucks Horn Brook (TIP ID 6046, Bridge #007601) will move into the newly created Bridge Group 42_H, which will be an historic Major Rehab group;
- Warwick Mall Br (TIP ID 6655, Bridge #082101), West Natick Road Br (TIP ID 6656, Bridge #082001), and Red Brook Bridge (TIP ID6619, Bridge #025901) are moving into the newly created Bridge Group 42A, which will be a Preservation group;
- Fairview Ave (TIP ID 6618, Bridge #041401) and Cahoone Road (TIP 6047, Bridge #084501) bridges are moving into the newly created Bridge Group 42B, which will be a Major Rehab group; and

- Artic Mill (TIP ID 6617, Bridge #051501), Male Valley Rd (TIP ID 6050, Bridge #084301), Nicholas Road (TIP ID 6051, Bridge #084601) Harkney Hill Rd (TIP ID 6048, Bridge #116101), and Hill Street Bridge at Pawtuxet River N Branch (TIP ID 6049, Bridge #084201) bridges are all moving into the newly created Bridge Group 42C, which will be a full Replacement group.

The funding for these new groups comes from a combination of Bridge Group 42 funding, OutYear funding, and other funds alleviated by changes throughout this administrative adjustment.

11. Fully Funding Bridge Group(s) 51A, 06, and 16A

The preceding portions of this administrative adjustment freed up some additional funding in FFY2019, 2020, and 2021, which will allow RIDOT to support some underfunded projects. These include Bridge Group 51A, Bridge Group 06, and Bridge Group 16A. The changes below include:

- An additional \$3M for Bridge Group 51A, spread over FY2020 (\$0.6M) and FY2021 (\$2.4M);
- An additional \$1.21M for Bridge Group 06 in 2020 (\$1.0M) and 2021 (\$0.21M); and
- An additional \$0.95M for Bridge Group 16A in 2020 (\$0.17M) and 2021 (\$0.78M).

The net increase of \$5.16M in the constrained period is offset by the reductions elsewhere in this administrative adjustment.

We have attached two Excel spreadsheets with the above described changes in table format, including any description changes needed and narrative explaining the changes, TIP IDs, sources and years of funding, etc. We have updated our table format to include all of the funding sources, as they appear in the STIP Access Database. The consistency of that syntax should ease the process through which the information in the existing database is reconciled with the new information updated by each adjustment or amendment. The right side of each sheet—each entry labeled “New Project [Number]”—now reflects the recommended funding for each project being altered, effectively displaying the funding as it should appear in the STIP following the adoption of each new adjustment or amendment.

If you have any concerns, please let us know. Any rounding errors (third decimal place or greater) may be resolved in whatever way is easiest to accommodate in the database. We have again managed to maintain fiscal constraint and are willing to work together with your office to help with a quick approval process. Please reach out to Ken White or to Mike Gannon with any specific questions or concerns regarding the adjustment.
