**SUBJECT:** Request for Revision #1 to the FFY2026-2035 STIP - Administrative Adjustment

The purpose of this memorandum is to summarize the changes proposed in Revision 1 to the FFY2026-2035 STIP. This Administrative Adjustment programs newly received Bridge Thud funding, Safe Streets for All Funding, Congressionally Directed Spending funds and project cost changes. Additionally, this amendment includes a formatting update to the STIP tables replacing "Asset ID" with "DOT Inventory ID". Per 23 CFR 450.218 all regionally significant projects that require action by the FHWA or FTA are now being included into the STIP. This adjustment removes \$9.21 million from the constrained period and \$173.01 million from the STIP over ten years for RIDOT programs.

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

---

April 16, 2026  
Ms. Meredith Brady, Secretary  
State Planning Council  
Department of Administration  
One Capitol Hill  
Providence, RI 02903

Dear Ms. Brady:

The Rhode Island Public Transit Authority (RIPTA) requests an administrative adjustment to the FFY 2026-2035 State Transportation Improvement Program (STIP). This administrative adjustment is needed to add funds associated with the Low or No Emission Grant Program that are now ready for obligation, and transfer funding between STIP IDs due to authority needs.

In 2025, the Authority received a \$25M Low or No Emission Grant Program award for the purpose of modernizing public transit fleets and infrastructure. It provides funding for the purchase or lease of zero-emission and low-emission transit buses, as well as the acquisition, construction, and leasing of required supporting facilities. These funds are matched with \$5.98M in RI Highway Maintenance Account and \$0.26M in gas tax match.

The authority would like to move \$0.35M of Prior Year 5311 from its Rural Operations STIP ID 7005 to its Paratransit STIP ID 7002. The Rural Operations line is matched at 50% while the Paratransit line is matched at 20%. The Rural Operations gas tax was reduced by \$0.35M. The Paratransit Fleet gas tax match was increased to \$0.09M, and as indicated above we added \$0.26M to Fixed Route bus purchases.

The results of the actions herein are an additional \$30.98M (\$25M federal, \$5.98M match) to the STIP during the constrained period (FFY2026-2029) which the match will be from the RI Highway Maintenance Account. The requested amendment changes are as follows and broken down according to the necessary changes:

Municipality		Description										Responsible Agency		
Statewide		The project includes improvements to sidewalks, including widening to ensure ADA compliance and promote a walkable, attractive business district. Lighting, trees, benches, and other amenities will be provided. Currently the sidewalks in this busy business district for the most part are not ADA compliant and are in a state of disrepair. The improvements will enhance safety and comfort for pedestrians and all roadway users, which also provide economic benefits for the business in the district. Bike lanes will also be provided as part of the roadway reconfiguration.										RIDOT

Municipality		Description										Responsible Agency
Tiverton		The Mount Hope Bay Greenway (MHBG) is a two and a half mile segment of a six mile shared use trail along the eastern shoreline of Mount Hope Bay within the unused railway ROW starting at the Sakonnet River Bridge in Tiverton RI and extending to the South Coast Rail commuter station in Fall River, MA. The construction is planned to be a coordinated effort between RIDOT to the Stateline and MassDOT to the new commuter rail station. The MHBG will connect Tiverton directly to Fall River bus service, a ferry line, and commuter rail service, making it not only a topnotch safe greenspace recreation trail, but also improve coastal access and fundamentally change the transportation options for Tiverton residents for access to job opportunities in a cost effective manner. **STIP ID: 6005      PTS ID:      Project Name: Paradise Ave. roundabout & sidewalk/multi-use path**

Municipality		Description										Responsible Agency
Middletown, Statewide		The proposed roundabout at the Paradise Ave./Green End Ave. intersection will address a situation where there are high speeds and excess stormwater runoff due to a large paved intersection. Due to the size of the intersection turns can be made at relatively high speed from all directions. The roundabout will serve to slow traffic and provide more controlled traffic flow. The intersection also is directly adjacent to the Maidford River, which is a public drinking water supply. The roundabout will result in reduced impervious area and provide stormwater BMPs. The proposed sidewalk or shared-use path on Paradise Ave. will address a current safety concern, particularly for pedestrians using the roadway. There are currently little or no shoulders on the narrow roadway and drainage swales along much of its length, forcing pedestrians to walk in the travel lanes. This is a particular concern in the summer months, with the increased vehicle traffic, bikes, and pedestrian use of the roadway by those accessing the beaches and other attractions in the area. Municipality		Description										Responsible Agency
Providence		The Francis Street bridge replacement will ensure critical bridge structures connecting Smith Hill south into Downtown are brought into a state of good repair. Bridge failure would result in disruptions to Amtrak and other rail service. In addition to bridge structure replacement, a focus on safety improvements at the key intersections of Gaspee Street and Memorial Blvd would be included to ensure smooth traffic flow for all road users, including RIPTA transit vehicles, people walking and biking, and vehicular traffic. This project provides a critical opportunity to improve ADA access along the corridor, particularly at the intersection of Finance Way, which currently does not meet ADA standards for access to the mall property and points west. Municipality		Description										Responsible Agency
Providence		This project will replace the 1,295-foot long northbound section of the Providence Viaduct Bridge which carries I-95 over numerous local roads and highway ramps, Amtrak's Northeast Corridor and the Woonasquatucket River. Construction of a new collector-distributor (C-D) road along the right side of the Interstate will eliminate the weaving conflicts and congestion that plague the segment of I-95 Northbound from the 6/10 Connector and Downtown on-ramps to the Route 146/State Offices interchange. Ramps will also be reconfigured to disentangle conflicting movements, improving motorist safety.										RIDOT
