State House Providence, Rhode Island 02903-1196 401-222-2080

Gina M. Raimondo Governor

July 21, 2017

Mr. Carlos C. Machado Division Administrator Federal Highway Administration 380 Westminster Street, Suite 601 Providence, RI 02903 Ms. Mary Beth Mello Regional Administrator Federal Transit Administration 55 Broadway, Suite 920 Cambridge, MA 02142

Dear Mr. Machado and Ms. Mello:

The Secretary of the State Planning Council, Metropolitan Planning Organization for the State of Rhode Island, approved an administrative adjustment, classified as Amendment #3 to the State Transportation Improvement Program (STIP) for federal fiscal years 2017-2025 on July 11, 2017.

The Rhode Island Department of Transportation (RIDOT) has proposed changes to redistribute funding for Route 6/10, Bridge Capital, and Pavement Capital, to specific projects and to the actual year of project design and construction for projects listed in the FFY2017-2025 STIP. RIDOT also seeks to apply funds resulting from closeouts of federal projects to ongoing bridge and pavement projects as well as clarify the cost of debt service on Grant Anticipation Revenue Vehicle bond (GARVEE) borrowing and the state's share of toll capital projects. This amendment does not result in a change to the timeline or purpose of the project.

I hereby concur with this amendment and provide my assurance that the STIP and this amendment satisfy all requirements of state and federal laws and regulations. I request that you provide the appropriate approvals and certifications so that these critical transportation projects may proceed.

Enclosed are copies of the amendment request and amended TIP appendices. If you have any questions regarding this action, please contact Paul DiGiuseppe of the Rhode Island Department of Administration, Division of Planning at (401) 222-1233 or paul.digiuseppe@doa.ri.gov.

Sincerely

Gina M. Raimondo

Governor

Department of Administration STATEWIDE PLANNING PROGRAM One Capitol Hill Providence, RI 02908 - 5872

July 11, 2017
Ms. Meredith Brady
Administrator, Division of Planning
Rhode Island Department of Transportation
Two Capitol Hill
Providence, RI 02903

Dear Ms. Brady:

The Rhode Island Department of Administration, Division of Planning has received the Rhode Island Department of Transportation's (RIDOT) request of June 14, 2017 for a change to the approved FFY2017-2025 State Transportation Improvement Program (STIP). The series of changes are needed to help RIDOT allocate funds so that projects remain on schedule in the summer season. RIDOT has proposed changes to the sources and uses of funding; full details of which are provided in the attached letter. Broadly, RIDOT is redistributing funding for Route 6/10, Bridge Capital, and Pavement Capital, to specific projects and to the actual year of project design and construction for projects listed in the FFY2017-2025 STIP. RIDOT also seeks to apply funds resulting from closeouts of federal projects to ongoing bridge and pavement projects as well as clarify the cost of debt service on Grant Anticipation Revenue Vehicle bond (GARVEE) borrowing and the state's share of toll capital projects.

The requested change seeks an Administrative Adjustment to the FFY2017-2025 STIP. RIDOT requests that funding be added to FFY 2017, but it seeks no changes in the timeline or purpose of the project. The Department of Administration has determined the proposed changes do not constitute a proposal to add, delete, or modify established strategies or projects that would involve a substantial functional, locational, and/or capacity change to that detailed in the FFY2017-2025 STIP.

I have reviewed RIDOT's request against the 2003 Memorandum of Understanding (MOU) regarding procedures to amend and modify the STIP. The MOU that is currently in effect allows for administrative adjustments when adding federal discretionary funds to projects listed in the TIP. As Secretary of the State Planning Council, I find that this request constitutes an administrative adjustment under the MOU and is hereby approved. The documentation submitted indicates that fiscal constraint of the STIP will be maintained. In addition, the changes fall within the allowable range of 10-20% under the "Administrative, CMAQ (4), Enhancements, Interstate, Pavement Management, Planning, Study & Development, Traffic/Safety" category as well as falling under the \$10 million limit under the "Major Projects and Bridge" category. Finally, under the Bridge Capital Program of the FY17-25 STIP (p. 37) "RIDOT determines the scheduling and prioritization for all projects, and may vary the schedule from that listed in the STIP."

Statewide Planning and RIDOT staff met with Federal Highway Administration (FHWA) staff on July 5, 2017 to discuss the proposed amendment and how to move forward. FHWA concurred with our findings and steps moving forward via an email sent on July 7, 2017.

For record keeping purposes, please note that this administrative adjustment shall be referred to as approved Amendment #3 to the FFY2017-2025 STIP. A revised STIP appendix incorporating the modifications will be forthcoming.

Sincerely,

Parag Agrawal, AICP Associate Director

State Planning Council

From: Meredith E. Brady

Administrator, Division of Planning

Date: May 22, 2017 - Amended June 14, 2017

Subject: Request for TIP Adjustment for 2017 Program Changes

Attached please find a file with all of the data necessary for a requested Administrative Adjustment to the FFY2017 Transportation Improvement Program (TIP). The file includes all requested changes, including a comparison of sources and uses: please don't hesitate to ask for clarification if there are any questions.

First and foremost, our FFY2017 TIP remains fiscally constrained. Despite the fact that there is a significant difference on the bottom line (\$790.5 million in the approved TIP versus \$558.5 million in the requested amendment, a difference of \$197 million LESS in FFY2017), there are a number of extenuating factors that lead us to believe that we can approach this amendment as an Administrative Adjustment.

- 1. \$207 million in funding is shifted forward into the updated FFY2018-FFY2027 TIP, as previously submitted, not eliminated.
 - a. These funds are GARVEE proceeds;
 - b. This leaves us with a net total of \$10 million more in sources (total) than FFY2017 as approved, or 1.8% of the proposed FFY2017 program
- 2. The Bridge category change is less than \$10 million for the whole category, meeting the Administrative Adjustment threshold.
- 3. The only capital category with a more than 10% category change on the bottom line is pavement, and the change in Pavement is less than 20%, the threshold for Administrative Adjustment.

Please see the attached page for some additional detail regarding the shifts.

Please provide notice to the Transportation Advisory Committee and State Planning Council of this request, as required by the TIP amendment procedures, and grant approval to the adjustment.

Thank you for your assistance in this matter.

Changes to Sources and Uses - FFY2017 Amendment

Sources: GARVEE Bond Proceeds (\$207 million less). This reduction reflects the distribution of funding to the actual year of project design and construction for both the 6/10 Project and other Bridge projects, beyond FFY2017, where the GARVEE bond funding was initially warehoused as a lump sum.

Sources: Other Federal Non-Formula Distribution/Redistribution (\$10 million more). This amount accounts for project closeouts on federal projects, where remaining funding can then be applied to other federally-eligible projects (Title 23). In FFY2017, the state has already recovered over \$10 million in state and federal project closeouts combined.

Uses: Pavement Maintenance (\$3 million more). This increase is necessary to fund alternative pavement treatments that can decrease costs for simple projects and reduce immediate needs and emergencies. This is not a new project, just an increase in funding to the line item from federal project closeout funds.

Uses: Debt Service (\$7.3 million less). This decrease is due to a lower interest rate on the new GARVEE borrowing, achieved in FFY2017 (October). The interest rate was almost two full points lower than projected.

Uses: Bridge Capital Program (\$9.6 million less). While the total is less, there are a combination of factors which result in the net reduction. However, as detailed on page 37 of the FFY2017-FFY2025 STIP Program Descriptions, under Bridge Capital, "RIDOT determines the scheduling and prioritization for all projects, and may vary the schedule from that listed in the STIP"

- Many bridges are shifted between groups, in order to use contracts in corridors on an efficient and
 effective basis. This has resulted in a net increase in the number of bridge groups in FFY2017, and a net
 increase in bridge group costs, where some have expanded (\$24.4 million more) as we refine data and
 determine improvements to process.
- Some bridge costs are shifted into future years to accurately reflect the expenditure of the GARVEE funds (\$29.4 million less), but none are eliminated from the STIP;
- The Projects Under Construction line item is reduced from \$13.2 million to \$6.1 million, a reduction of \$7.1 million, reflecting the fact that we no longer need funds in a general project account, but instead allocate them to specific projects;
- Immediate Needs is bolstered by an additional \$2.5 million in federal project closeout funds.

Uses: Pavement Capital (\$15.4 million less). While the total funding in this category appears significantly lower, the Projects Under Construction line item is reduced from \$23.8 million to \$2.0 million, a reduction of \$21.8 million, reflecting the fact that we no longer need funds in a general project account, but instead allocate them to specific projects. The net increase of \$6.4 million programmed in projects allows RIDOT "to address immediate and critical pavement condition deficiencies through a STIP amendment" (page 38, FFY2017-FFY2025 STIP).

Uses: Toll Capital (\$9.5 million more). This project is increased to correct for an administrative error that occurred when the FFY2017-FFY2025 STIP was first adopted. The State share of the gantry costs were not included: \$38.0 million in Federal GARVEE funding requires \$9.5 million in state funds.

Uses: Traffic Safety Capital (no net change). The only amendments in Traffic Safety Capital shift funds targeted at statewide initiatives to specific projects, with no net change in the bottom line of the program.

Uses: Route 6/10 Project (\$177.6 million less). This reduction reflects the distribution of funding to the actual year of project design and construction for the 6/10 Project and other Bridge projects, beyond FFY2017, where the GARVEE bond funding was initially warehoused as a lump sum.

APPENDIX B

Rhode Island

State Transportation Improvement Program (STIP)

FFY 2017-2025

STIP Approved September 8, 2016

Amendment #1 November 30, 2016 Amendment #2 January 31, 2017

Amendment #3

July 21, 2017

Appendix B to the approved FFY 2017-2025 State Transportation Improvement Program (the "Program") reflect revisions to the Program brought on by a series of changes needed to help RIDOT allocate funds so that projects remain on schedule in the 2017 summer season. RIDOT has proposed changes to the sources and uses of funding. Specifically, RIDOT is redistributing funding for Route 6/10, Bridge Capital, and Pavement Capital, to specific projects and to the actual year of project design and construction for projects listed in the FFY2017-2025 STIP. RIDOT also seeks to apply funds resulting from closeouts of federal projects to ongoing bridge and pavement projects as well as clarify the cost of debt service on Grant Anticipation Revenue Vehicle bond (GARVEE) borrowing and the state's share of toll capital projects.

Under the Bridge Capital Program of the FY17-25 STIP, RIDOT has exercised their responsibility to determine the scheduling and prioritization for all projects, and therefor vary the schedule from that listed in the Approved STIP (Amended January 31, 2017). A number of changes have been made to bridge groupings to support procurement and project management efforts. It has been determined that proposed changes do not constitute a proposal to add, delete, or modify established strategies or a program that would involve a substantial functional, locational, and/or capacity change to that detailed in the FFY2017-2025 STIP as per the Memorandum of Understanding dated April 2003.

For record keeping purposes, please note that this Appendix constitutes an administrative adjustment and shall be referred to as approved Amendment #3 to the FFY2017-2025 STIP. All changes are made to FFY2017. Statewide Planning and RIDOT staff met with Federal Highway Administration (FHWA) staff on July 5, 2017 to discuss the proposed amendment and how to move forward. FHWA concurred with our findings and steps moving forward via an email sent on July 7, 2017.
